

Abri-Flex Premium

Product Profile and Product Benefits

UPDATE

Product Profile

- Our pull-up pant is designed with an aspiration to create an ultra discreet pull-up pant with Abena Quality Features of softness, Top-Dry System, breathability, and leakage security.
- Abri-Flex Premium is recommended for the active user, but can be of benefit for a wide range of customers.
- We strongly believe in making products with one perspective; the well-being of the end-user! And our message is always to give customers a product as small as possible, but as large as necessary.
- We believe that the 3D Dual Core Technology of the Abri-Flex, which allows us to create a thin and comfortable product, is the way the market will develop cores in the future. The market trend is geared towards product discreetness; lighter, thinner and absorbency positioned precisely where it is most needed.
- We have optimized the shape of our pull-up pants and added more lycra threads to provide the end-user with a tighter, more secure fit and a softer feeling.
- Premium-quality features such as breathability, quick absorption, high side barriers, and odour control remains the same for optimal use, security, and comfort.

Abri-Flex range, specifications:

Sizes: ■ XS ■ S ■ M ■ L ■ XL

Absorption: 1400 ml - 1900 ml - 2400 ml

Product Benefits

- *Super Soft Nonwoven material which ensures optimum comfort and the feeling of wearing normal underwear.*
- *More lycra threads and optimized fit, providing a tight and flexible product, offering full discretion to the user and leakage security. **
- *Efficient 3D Dual Core construction for a more discreet fit. No bulkiness in front and back. Full absorption precisely where needed. **
- *Dry feeling for users because of the improved Top-Dry acquisition layer. The primary feature is a fast urine absorption, which ensures dry and healthy skin. **
- *High side barriers and internal cross barrier for leakage security.*
- *Maximum absorption up to 2400 ml covering customer's needs.*

* only applies for sizes medium and large.
